

## AIR CONDITIONING QUALIFICATIONS

As you will be aware, European Union F Gas Regulations require that technicians involved in the servicing and removal of Mobile Air Conditioning (MAC) systems in cars and light vans have completed relevant training and certification.

Since July 2008, it has been a requirement that all new MAC technicians achieve an approved Refrigerant Gas Handling qualification within 12 months of commencing their role. By 4<sup>th</sup> July 2010, all MAC technicians must achieve an approved qualification, including those who have already completed “in house” training.

The Motor Industry Skills Consortium is a network of leading Automotive training centres dedicated to delivering high quality training and assessment to the motor industry. Please see our website [www.ukmisc.com](http://www.ukmisc.com) for details.

We offer ATA Assessments which meet the requirements of EU F Gas Regulation EC842-2006 and annex EC307-2008 for technicians involved in the servicing and removal of Mobile Air Conditioning (MAC) systems in cars and light vans.

They are available at our centres in the following locations and bookings can be taken for groups or individuals:

- Bridgwater
- Birmingham
- Cardiff
- Gateshead
- Kingston on Thames
- Manchester
- Motherwell

Assessment dates are arranged subject to demand and we will be pleased to discuss your requirements with you.

The assessments available and current prices are as follows. The prices are per candidate and include registration fees.

ATA Air Conditioning (Refrigerant Handler) – 0.5 day assessment only	£175
ATA Air Conditioning (Refrigerant Handler) – 1 day, comprising 0.5 day pre-assessment theory and demonstration session and 0.5 day assessment	£250
ATA Air Conditioning (Refrigerant Handler) – 2 days, comprising pre-assessment training and 0.5 day assessment	£395
IMI Level 3 Award in Automotive Refrigerant Handling (2 days)	£300

We can also tailor pre-assessment training to the specific needs of the candidate.
